NOTE:—

MONETARY AND NON-MONETARY GOLD IN TRADE STATISTICS

The Bureau of Statistics has experienced difficulty in recent years in connection with the treatment of gold in trade statistics, especially in the case of exports. In former times there was some movement of gold from Canada in the form of gold-bearing quartz, dust, nuggets, and bullion obtained direct from mining operations to the United States for refining purposes. These exports were recorded as merchandise. When the Royal Mint began refining gold in Ottawa, this gold-bearing quartz, dust, nuggets, etc., began to be exported in the form of gold bullion, and to be recorded under the "Coin and Bullion" section.

The Bureau has been in conference with the Bank of Canada, and the Department of National Revenue, and has developed a policy whereby all gold bullion which goes out of the country as "Merchandise" will be entered as such, and will be recorded in total commodity exports. From April 1, 1935, in this report, exports of Canadian gold bullion, non-monetary, formerly included under "Coin and Bullion" have been recorded as "Merchandise".

NOTE:—

OR MONÉTAIRE ET NON MONÉTAIRE DANS LES STATISTIQUES DU COMMERCE

Le Bureau Fédéral de la Statistique a éprouvé certaines difficultés en ces dernières années dans la manière de considérer l'or dans les statistiques du commerce, spécialement dans le cas des exportations. Autrefois le Canada exportait de l'or sous forme de quartz aurifère, poussière, pépites et lingots, provenant directement des opérations minières et expédié aux États-Unis pour affinage. Ces exportations étaient entrées comme de la marchandise. Quand la Monnaie Royale commença l'affinage de l'or à Ottawa, ces quartz aurifères, poussière, pépites, etc., furent exportés sous forme de bullion et furent entrés dans la section de "Monnaie et Bullion".

Après une conférence avec la Banque du Canada, et le Ministère du Revenu National, le Bureau a convenu d'entrer tout l'or sortant du pays comme "marchandise" sous tel en-tête, et de le faire entrer dans le total des exportations de marchandises. Depuis le 1er avril 1935, dans le présent rapport, les exportations d'or canadien en lingots non monétaire, autrefois compris sous "Monnaie et Bullion", sont entrées comme "marchandise".

NOTE:—

MONETARY AND NON-MONETARY GOLD IN TRADE STATISTICS

The Bureau of Statistics has experienced difficulty in recent years in connection with the treatment of gold in trade statistics, especially in the case of exports. In former times there was some movement of gold from Canada in the form of gold-bearing quartz, dust, nuggets, and bullion obtained direct from mining operations to the United States for refining purposes. These exports were recorded as merchandise. When the Royal Mint began refining gold in Ottawa, this gold-bearing quartz, dust, nuggets, etc., began to be exported in the form of gold bullion, and had to be recorded under the "Coin and Bullion" section.

The Bureau has been in conference with the Bank of Canada, and the Department of National Revenue, and has developed a policy whereby all gold bullion which goes out of the country as "Merchandise" will be entered as such, and will be recorded in total commodity exports. From April 1, 1935, in this report, exports of Canadian gold bullion, non-monetary, formerly included under "Coin and Bullion" have been recorded as "Merchandise".

NOTE:—

OR MONÉTAIRE ET NON MONÉTAIRE DANS LES STATISTIQUES DU COMMERCE

Le Bureau Fédéral de la Statistique a éprouvé certaines difficultés en ces dernières années dans la manière de considérer l'or dans les statistiques du commerce, spécialement dans le cas des exportations. Autrefois le Canada exportait de l'or sous forme de quartz aurifère, poussière, pépites et lingots, provenant directement des opérations minières et expédié aux États-Unis pour affinage. Ces exportations étaient entrées comme de la marchandise. Quand la Monnaie Royale commença l'affinage de l'or à Ottawa, ces quartz aurifères, poussière, pépites, etc., furent exportés sous forme de bullion et furent entrés dans la section de "Monnaie et Bullion".

Après une conférence avec la Banque du Canada, et le Ministère du Revenu National, le Bureau a convenu d'entrer tout l'or sortant du pays comme "marchandise" sous tel en-tête, et de le faire entrer dans le total des exportations de marchandises. Depuis le 1er avril 1935, dans le présent rapport, les exportations d'or canadien en lingots non monétaire, autrefois compris sous "Monnaie et Bullion", sont entrées comme "marchandise".

NOTE:—

MONETARY AND NON-MONETARY GOLD IN TRADE STATISTICS

The Bureau of Statistics has experienced difficulty in recent years in connection with the treatment of gold in trade statistics, especially in the case of exports. In former times there was some movement of gold from Canada in the form of gold-bearing quartz, dust, nuggets, and bullion obtained direct from mining operations to the United States for refining purposes. These exports were recorded as merchandise. When the Royal Mint began refining gold in Ottawa, this gold-bearing quartz, dust, nuggets, etc., began to be exported in the form of gold bullion, and to be recorded under the "Coin and Bullion" section.

The Bureau has been in conference with the Bank of Canada, and the Department of National Revenue, and has developed a policy whereby all gold bullion which goes out of the country as "Merchandise" will be entered as such, and will be recorded in total commodity exports. From April 1, 1935, in this report, exports of Canadian gold bullion, non-monetary, formerly included under "Coin and Bullion" have been recorded as "Merchandise".

NOTE:—

OR MONÉTAIRE ET NON MONÉTAIRE DANS LES STATISTIQUES DU COMMERCE

Le Bureau Fédéral de la Statistique a éprouvé certaines difficultés en ces dernières années dans la manière de considérer l'or dans les statistiques du commerce, spécialement dans le cas des exportations. Autrefois le Canada exportait de l'or sous forme de quartz aurifère, poussière, pépites et lingots, provenant directement des opérations minières et expédié aux États-Unis pour affinage. Ces exportations étaient entrées comme de la marchandise. Quand la Monnaie Royale commença l'affinage de l'or à Ottawa, ces quartz aurifères, poussière, pépites, etc., furent exportés sous forme de bullion et furent entrés dans la section de "Monnaie et Bullion".

Après une conférence avec la Banque du Canada, et le Ministère du Revenu National, le Bureau a convenu d'entrer tout l'or sortant du pays comme "marchandise" sous tel en-tête, et de le faire entrer dans le total des exportations de marchandises. Depuis le 1er avril 1935, dans le présent rapport, les exportations d'or canadien en lingots non monétaire, autrefois compris sous "Monnaie et Bullion", sont entrées comme "marchandise".

NOTE:—

MONETARY AND NON-MONETARY GOLD IN TRADE STATISTICS

The Bureau of Statistics has experienced difficulty in recent years in connection with the treatment of gold in trade statistics, especially in the case of exports. In former times there was some movement of gold from Canada in the form of gold-bearing quartz, dust, nuggets, and bullion obtained direct from mining operations to the United States for refining purposes. These exports were recorded as merchandise. When the Royal Mint began refining gold in Ottawa, this gold-bearing quartz, dust, nuggets, etc., began to be exported in the form of gold bullion, and to be recorded under the "Coin and Bullion" section.

The Bureau has been in conference with the Bank of Canada, and the Department of National Revenue, and has developed a policy whereby all gold bullion which goes out of the country as "Merchandise" will be entered as such, and will be recorded in total commodity exports. From April 1, 1935, in this report, exports of Canadian gold bullion, non-monetary, formerly included under "Coin and Bullion" have been recorded as "Merchandise".

NOTE:—

OR MONÉTAIRE ET NON MONÉTAIRE DANS LES STATISTIQUES DU COMMERCE

Le Bureau Fédéral de la Statistique a éprouvé certaines difficultés en ces dernières années dans la manière de considérer l'or dans les statistiques du commerce, spécialement dans le cas des exportations. Autrefois le Canada exportait de l'or sous forme de quartz aurifère, poussière, pépites et lingots, provenant directement des opérations minières et expédié aux Etats-Unis pour affinage. Ces exportations étaient entrées comme de la marchandise. Quand la Monnaie Royale commença l'affinage de l'or à Ottawa, ces quartz aurifères, poussière, pépites, etc., furent exportés sous forme de bullion et furent entrés dans la section de "Monnaie et Bullion".

Après une conférence avec la Banque du Canada, et le Ministère du Revenu National, le Bureau a convenu d'entrer tout l'or sortant du pays comme "marchandise" sous tel en-tête, et de le faire entrer dans le total des exportations de marchandises. Depuis le 1er avril 1935, dans le présent rapport, les exportations d'or canadien en lingots non monétaire, autrefois compris sous "Monnaie et Bullion", sont entrées comme "marchandise".

NOTE:—

MONETARY AND NON-MONETARY GOLD IN TRADE STATISTICS

The Bureau of Statistics has experienced difficulty in recent years in connection with the treatment of gold in trade statistics, especially in the case of exports. In former times there was some movement of gold from Canada in the form of gold-bearing quartz, dust, nuggets, and bullion obtained direct from mining operations to the United States for refining purposes. These exports were recorded as merchandise. When the Royal Mint began refining gold in Ottawa, this gold-bearing quartz, dust, nuggets, etc., began to be exported in the form of gold bullion, and to be recorded under the "Coin and Bullion" section.

The Bureau has been in conference with the Bank of Canada, and the Department of National Revenue, and has developed a policy whereby all gold bullion which goes out of the country as "Merchandise" will be entered as such, and will be recorded in total commodity exports. From April 1, 1935, in this report, exports of Canadian gold bullion, non-monetary, formerly included under "Coin and Bullion" have been recorded as "Merchandise".

NOTE:—

OR MONÉTAIRE ET NON MONÉTAIRE DANS LES STATISTIQUES DU COMMERCE

Le Bureau Fédéral de la Statistique a éprouvé certaines difficultés en ces dernières années dans la manière de considérer l'or dans les statistiques du commerce, spécialement dans le cas des exportations. Autrefois le Canada exportait de l'or sous forme de quartz aurifère, poussière, pépites et lingots, provenant directement des opérations minières et expédié aux États-Unis pour affinage. Ces exportations étaient entrées comme de la marchandise. Quand la Monnaie Royale commença l'affinage de l'or à Ottawa, ces quartz aurifère, poussière, pépites, etc., furent exportés sous forme de bullion et furent entrés dans la section de "Monnaie et Bullion".

Après une conférence avec la Banque du Canada, et le Ministère du Revenu National, le Bureau a convenu d'entrer tout l'or sortant du pays comme "marchandise" sous tel en-tête, et de le faire entrer dans le total des exportations de marchandises. Depuis le 1er avril 1935, dans le présent rapport, les exportations d'or canadien en lingots non monétaire, autrefois compris sous "Monnaie et Bullion", sont entrées comme "marchandise".

NOTE:—

MONETARY AND NON-MONETARY GOLD IN TRADE STATISTICS

The Bureau of Statistics has experienced difficulty in recent years in connection with the treatment of gold in trade statistics, especially in the case of exports. In former times there was some movement of gold from Canada in the form of gold-bearing quartz, dust, nuggets, and bullion obtained direct from mining operations to the United States for refining purposes. These exports were recorded as merchandise. When the Royal Mint began refining gold in Ottawa, this gold-bearing quartz, dust, nuggets, etc., began to be exported in the form of gold bullion, and to be recorded under the "Coin and Bullion" section.

The Bureau has been in conference with the Bank of Canada, and the Department of National Revenue, and has developed a policy whereby all gold bullion which goes out of the country as "Merchandise" will be entered as such, and will be recorded in total commodity exports. From April 1, 1935, in this report, exports of Canadian gold bullion, non-monetary, formerly included under "Coin and Bullion" have been recorded as "Merchandise".

NOTE:—

OR MONÉTAIRE ET NON MONÉTAIRE DANS LES STATISTIQUES DU COMMERCE

Le Bureau Fédéral de la Statistique a éprouvé certaines difficultés en ces dernières années dans la manière de considérer l'or dans les statistiques du commerce, spécialement dans le cas des exportations. Autrefois le Canada exportait de l'or sous forme de quartz aurifère, poussière, pépites et lingots, provenant directement des opérations minières et expédié aux Etats-Unis pour affinage. Ces exportations étaient entrées comme de la marchandise. Quand la Monnaie Royale commença l'affinage de l'or à Ottawa, ces quartz aurifère, poussière, pépites, etc., furent exportés sous forme de bullion et furent entrés dans la section de "Monnaie et Bullion".

Après une conférence avec la Banque du Canada, et le Ministère du Revenu National, le Bureau a convenu d'entrer tout l'or sortant du pays comme "marchandise" sous tel en-tête, et de le faire entrer dans le total des exportations de marchandises. Depuis le 1er avril 1935, dans le présent rapport, les exportations d'or canadien en lingots non monétaire, autrefois compris sous "Monnaie et Bullion", sont entrées comme "marchandise".
